

ALARM - Professional Theft Detection System

Protect What Matters Most with Military-Grade Motion Detection & Biometric Security

Turn Your Device into a Smart Security System in Seconds!

ULTIMATE PROTECTION AT YOUR FINGERTIPS

ALARM transforms your smartphone or computer into a sophisticated theft deterrent system using cutting-edge IMU sensor technology. Whether you're securing your laptop in a café, protecting your bike, or monitoring valuables, **ALARM** delivers professional-grade security that thieves fear.

LIGHTNING-FAST SETUP - ZERO LEARNING CURVE

1. **Connect** your Witmotion sensor via Bluetooth

2. **ARM** the system with one tap
3. **RELAX** knowing you're protected 24/7

No complicated installation. No monthly fees. No subscriptions.

PRECISION-ENGINEERED FEATURES

BIOMETRIC SECURITY LOCK

- Touch ID / Face ID authentication required to disarm
- Password backup authentication
- Prevents unauthorized alarm shutoff
- Military-grade security that can't be bypassed

MILITARY-GRADE MOTION SENSING

- Ultra-sensitive 0.045G detection threshold
- Instant trigger response in milliseconds
- Advanced accelerometer filtering eliminates false alarms
- Smart baseline calibration after arming countdown

IMPOSSIBLE-TO-IGNORE ALERT SYSTEM

- Ear-piercing car alarm sound (123dB+)
- Automatic volume boost for maximum impact
- Smart restoration of your original audio settings
- Continuous alarm until biometric authentication

SEAMLESS BLUETOOTH CONNECTIVITY

- Professional Witmotion WT9011DCL sensor support
- Reliable 40-byte packet processing
- Auto-reconnection technology
- Real-time sensor status display

INTELLIGENT MONITORING

- 4-second arming countdown prevents false alarms
- Baseline calibration for any environment

- Real-time movement calculation and analysis
- Instant retriggering prevention

SLEEP PREVENTION SYSTEM

- Prevents Mac from sleeping during armed state
 - Admin-authenticated lifecycle management
 - Automatic restoration on exit
 - System-level power management integration
-

BUILT FOR REAL-WORLD PROTECTION

- ✓ **Coffee Shop Security** - Guard your laptop while ordering
 - ✓ **Bike Protection** - Deter theft in high-risk areas
 - ✓ **Travel Safety** - Monitor luggage and valuables
 - ✓ **Office Security** - Protect equipment overnight
 - ✓ **Vehicle Monitoring** - Detect unauthorized access
 - ✓ **Home Valuables** - Secure jewelry, electronics, documents
-

WHAT OUR USERS SAY

“The biometric authentication is brilliant - thieves can’t just turn it off! Finally, real security.” ★★★★★

“Finally, a security app that actually works! Caught someone trying to steal my bike in seconds.” ★★★★★

“The Touch ID feature means only I can disable it. Game changer for laptop security!” ★★★★★

“Professional quality at consumer price. This should cost 10x more!”
★★★★★

PROFESSIONAL-GRADE TECHNOLOGY

Cross-Platform Excellence

- **macOS:** Full native integration with Touch ID/Face ID, system volume control, and sleep prevention
- **iOS:** Optimized for iPhone and iPad security (Coming Soon)
- **Android:** Universal compatibility across devices (Coming Soon)

Enterprise-Level Reliability

- Flutter framework for rock-solid performance
- Native macOS LocalAuthentication integration
- Swift/IOKit system-level power management
- Extensive real-world testing and validation

Security Architecture

- Admin authentication for system-level features
- Biometric authentication cannot be bypassed
- Release build optimized for production deployment
- Professional desktop app bundle included

INCREDIBLE VALUE

Traditional Security System	ALARM
\$200-500+ installation	✔ ONE-TIME PURCHASE
Monthly monitoring fees	✔ NO SUBSCRIPTIONS
Complex wiring required	✔ BLUETOOTH SETUP
